Helium Super Summit 2026 | October 19-21 (Houston, TX)

- Location: The Westin Houston, Memorial City
- CEO Ashley Lastinger will be available to connect with attendees at the conference
- [Learn more](#)

Kinvestor Day 2026 | October 22 (Virtual Live Online – Registration Required)

- CEO Ashley Lastinger to present at 11:20am PT / 2:20pm ET
- Presentation will be followed by live Q&A
- [Register here](#)

Investors interested in meeting with Altura management at any of these events are encouraged to contact investor relations to arrange a meeting.

ABOUT ALTURA ENERGY CORP.

Altura Energy Corp. is a helium-focused exploration and production company advancing a portfolio of assets in Arizona’s prolific Holbrook Basin. The Company is focused on developing a reliable domestic source of helium, a critical and non-renewable gas essential to applications in healthcare, semiconductor manufacturing, aerospace, and advanced technologies.

Altura is currently advancing its flagship project in the Holbrook Basin of Arizona, where existing infrastructure and recent operational milestones position the Company to commence near-term helium production. With helium concentrations significantly above those typically encountered in conventional natural gas reservoirs, Altura is working to unlock the value of one of North America’s emerging helium districts.
